ColorMi™ CMYK Color HP 4.0 Thermal Inkjet

FEATURES

- ◆ Full Color CMYK TIJ 4.0 Print Technology
- ◆ 4.25" to 8.5" Print Height
- ◆ 1200 dpi Print Quality
- ◆ Advanced Micro-Recirculation
- ◆ Up to 600 ft per minute
- ◆ Small Footprint

HIGH SPEED... HIGH RESOLUTION... CMYK

The ColorMi™ delivers cost-effective, high-quality, variable color printing for a wide range of applications. From packaging, coding and marking, and mailing to graphics, bar-codes, 2D codes, and unlimited customization, the ColorMi™ is built for flexibility. Its compact design fits easily into production environments while still offering print widths of up to 8.5" when using two heads. With a simple design and HP's Micro-Recirculation technology, the ColorMi™ keeps maintenance minimal and uptime high.

INTUITIVE SOFTWARE

The ColorMi™ is powered by Norwix's Vega software—designed to be incredibly easy to use from day one. Its intuitive interface allows operators to create, edit, and run jobs with minimal training, reducing setup time and eliminating complexity. Despite its simplicity, Vega seamlessly connects to external systems, pulling data in real time from remote databases and packaging equipment.

Without Micro-Recirculation

With Micro-Recirculation

DECAP ISSUES AND HARSH ENVIRONMENTS? SOLVED MICRO-RECIRCULATION

The ColorMi™ print-head features integrated recirculation by using dedicated thermal micro pumps for each nozzle instead of an external system. By firing specific resistors to create a circular flow within U-shaped ink channels, the technology ensures a continuous supply of fresh ink past every nozzle. This Micro-Recirculation eliminates moving parts and prevents nozzle clogging or defects, even after extended idle periods.

UPGRADE TO THE LATEST TIJ 4.0 TECHNOLOGY

HP TIJ 4.0 technology represents a major advancement in industrial printing—delivering high-speed capability, exceptional print quality up to 1200 DPI, and the proven reliability of HP's trusted platform. Designed for bulk ink operation, TIJ 4.0 ensures consistent performance, maximum uptime, and efficient, low-maintenance production. Its versatility makes it ideal for a wide range of industrial applications, including packaging, coding and marking, mailing, and graphics. The ColorMi™ harnesses the full power of HP TIJ 4.0 in a compact, easy-to-use system, it delivers high through-put, outstanding print quality, and dependable operation in demanding production environments. The ColorMi™ enables true CMYK color output in a single pass—unlocking unlimited possibilities for branding, customization, and high-impact imaging.

USER APPLICATIONS:

- ◆ E-commerce
- ◆ Direct to product
- ◆ Mailers
- ◆ Labeling
- ◆ Regulation markings
- ◆ Pharma / Medical
- ◆ Personalization
- ◆ Paper bags
- ◆ Case coding

NEW CARTRIDGE = NEW PRINT HEAD

With HP TIJ 4.0's quick disconnect (QD) cartridges each cartridge replacement effectively delivers a brand new, integrated printhead. This ensures consistent print quality without the need for calibration, tools or complex servicing. The QD cartridge takes just seconds to replace insuring easy of use for operators. Anyone that's operated traditional industrial printer knows that over time things happen to printheads, nozzles get clogged or damaged and eventually print quality deteriorates. No more... With each change of HP's QD cartridges, you get a fresh print head. It's day one print quality no matter how old the print system is.

ColorMi™—PERFORMANCE

Characteristic	Max Speed	
	ft/min	m/min
Resolution (DPI)		
600	600	182.8
1200	300	91.44

Characteristic	FC108
Print Width	108mm–216mm
Maximum Resolution	1200 dpi
Drops Size	7 pl
Jetting Frequency	36kHz
Throw Distance	Up to 7mm*
Nominal QD life	15L (Application Dependent)

Printable Items	Lot Codes, Date codes, Alphanumeric, Barcodes, Bitmaps, PDF
Bar-code Printing	EAN-13/EAN 8, UPC-A, Code128, ITF-14, ITF-2of5, Code39, Cryptocode, GS1 Datamatrix, QR (114 barcode support included)
Print Density	User Configurable (12.5% - 100%)
Umbilical Length	3m
Ink Type	Aqueous (Black and CMYK)
Bulk Solution	(4) 775ml Bulk Supply
Electrical Interface	Ethernet, I/O, Sensor, Encoder, Stack Light
Voltage	115V to 240V
Languages	English, Spanish, German, French, Korean, Chinese, Portuguese
Data File Support	CSV, TXT, MDB, XLS, XLSX, ACCDB
Daisy Chain	Daisy Chain multiple to build larger systems
Communications	1GB Ethernet
